Responses

Respondent	Response	Rationale
EleLink	Yes	EleLink supports the change of the implementation date to the sooner date of 3 December 2020. The proposed solution provides for the efficient publication of the disaggregated interconnector data, which will be of benefit to all market participants.
E.ON UK	Yes	Although this change doesn't impact us, we are happy to support the proposed implementation date as it is more pragmatic to implement this change alongside P408.

Question 2: Do you have any further comments on the proposed Implementation Date change for CP1535?

Summary

Yes	No	Neutral/No Comment	Other
