### NETA IDD Part 1 Document

Respondent	Location	Comment
Quorum Development	3.1.1	Does this need another bullet point for Replacement Reserve Data?
	3.1.1 table	Should not BMRA_I037 be included?
	4.12.4.162	Data item 'QP' indicated as being in message type 'PRRC' but is not included in the message definition at 4.12.5.73. The message is a period level message and should not need 'QP'.
	4.12.4.187	RR Instruction Flag 'RN' shown as being in BOALF message but the message definition for BOALF does not include the 'RN' field.
	4.12.4.188	RR Schedule Flag 'SC' shown as being in BOALF message but the message definition for BOALF does not include the 'SC' field.
	4.12.5.34	Should not the DISEBSP message contain data items related to the aggregate RR volumes used in the system price calculation?
	4.12.5.58	Should not the ISPSTACK message contain data items related to the aggregate RR volumes used in the system price calculation?
	4.12.5.69	Typo: 'EM' in place of 'EB' for Exclusive Bid.
	4.12.5.75	Type: 'GMNM' in place of 'GBNM'.

### NETA IDD Part 1 Spreadsheet

Respondent	Location	Comment
Quorum Development	SAA_I014, row 988	BRR data group: BRR shown with cardinality of 0-1. Does this mean if there are no acceptances then BRR will not be displayed, given that each of the fields is shown as mandatory ('1')? If so, then it looks like the child data group for RR Bids ('BRR') would be omitted – but there can of course be RR Bids without acceptances.

## BSCP01

Respondent	Location	Comment
Quorum Development	New diagram 3.5	Doesn't include RR Instructions as distinct from RR Acceptances – is this deliberate?
	4.1 table row 16	Timescale says RR Delivered Volumes to be reported by +3 WD (1700) but BSCP 602 (2.2.1) says 'Within 1 WD of the provision of a Balancing Service.'
